

AstroDuct Speed Frame

MOUNTING FRAME

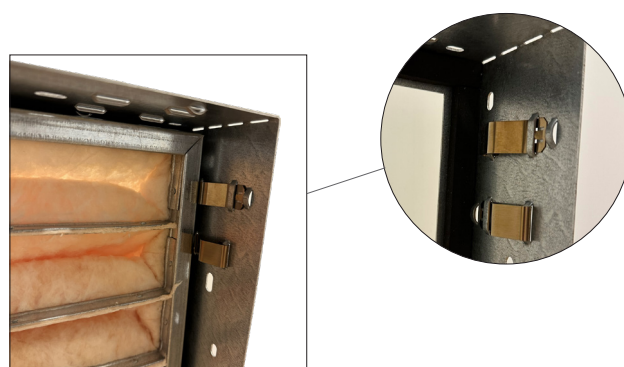

New attached frame for rapid mounting

In our new SPEEDFRAME, the filter is clamped against the gasket via built-in springs. The assembly time is significantly shortened compared to classic mounting frames.

Features and Benefits

- Mounting frame for front assembly of airfilter.
- Unique design makes the filter replacement both easier and faster.
- Can be connected to larger filter banks.
- The clips are made of stainless steel.
- Frame with EPDM rubber gasket.
- Suited for filter frames with a depth of 25 or 48 mm.
- Pre-filter cassette up to 96 mm can be mounted before a pocket filter with a 25 mm frame.

Configurations

Width (mm)	Height (mm)	Depth (mm)	Weight (kg)	Suitable for filter
608	608	90	1	592x592
